## A B O U T M E

*Part time Web Developer and graphics designer and part time college student.*

*Currently in the process of getting my Ass. of Graphic Communication.*

At few of my strengths regarding the graphic communication field is timing, detail oriented, and prioritizing what needs to be done first. I stride to to put my best effort into everything I do still have enough time to go that extra mile before whatever I'm working on is due. Lastly, one weakness is a personal bias towards my own work, and I need up most transparency on any project I am given.
